Karachi, Sindh - 75290, Pakistan

SUMMARY

Final-year Bachelor of Science in Computer Science student with proven expertise in cross-platform mobile development (ReactNative) and native Android(Java). Hands-on experience in DevOps and cloud computing Docker containers, Jenkins CI/CD pipelines, and managing AWS services.

EXPERIENCE

- **Mobile Application Internee (React Native)** *March 2025 - June 2025*
  FameWheels [⊕] Karachi, Pakistan
  - Used AWS, S3 for storage, CloudFront for delivery, and EC2 for traffic handling.
  - Built polished React Native UIs and optimized components for efficiency and maintainability.
  - Developed and consumed RESTful APIs (Axios/Fetch) for real-time data sync.
  - Tested FameWheel's Dealer and Classified mobile application's features and performance using Testing Libraries.

EDUCATION

- **Bachelor of Science in Computer Science** *February 2026*
  Muhammad Ali Jinnah University

SKILLS

- **Programming Languages:** Android (Java), React Native, Expo CLI, ES6+, TypeScript, Python, C++, C#
- **Web Technologies:** React.js, Node,js, Express.js, Angular.js
- **Database Systems:** SQL, MongoDB, MYSQL, Firebase
- **DevOps & Version Control:** AWS,Docker, Ansible, Jenkins, Kubernetes, GitHub

CERTIFICATIONS

- Android Application Development ®   Jira Fundamentals ®   Docker Training Course ®
- Node js ®   Git Github ®   Scrum Foundation Professional Certificate (SFPC) ®
- Html,Css ®   React js ®   Project Management Essentials ®   SQL For Data Science ®

PROJECTS

- **Web Application performing Crud Operations in Java(SpringBoot & Angular)** *July 2024 – Present*
  Tools: SpringBoot, Angular [Ⓖ]
  - Developed a full-stack web application with Spring Boot (backend) and Angular (frontend).
  - Implemented RESTful APIs to handle CRUD operations efficiently.
  - Designed a secure authentication system using JWT tokens.

- **Restaurant Management System (C#, .NET, Windows Forms)** *June 2024 – Present*
  Tools: Visual Studio, GitHub [Ⓖ]
  - Built a desktop application with admin and employee roles for restaurant management.
  - Enabled staff management, table reservations, and menu updates via an interactive UI.
  - Integrated SQL Server for efficient data storage and retrieval.

- **Car Rental Mobile Application (Java, Firebase)** *May 2024 – Present*
  Tools: Android Studio, GitHub [Ⓖ]
  - Developed an Android app for car rentals with separate admin and user roles.
  - Admins can add, update, and delete cars, while users can browse and book vehicles.
  - Used Firebase Authentication for secure login and real-time database updates.

- **Chatting Mobile Application (React Native, Firebase)** *Jan 2025 – Present*
  Tools: Visual Studio Code, Node.js, Firebase
  - Created a real-time chat app with Firebase authentication and Firestore database.
  - Implemented secure user authentication and instant message delivery.
  - Designed a responsive UI optimized for both Android and iOS platforms.

- **DevOps Automation & Cloud Infrastructure** *December 2024 – Present*
  Tools: AWS, Jenkins, Docker
  - Designed and implemented a CI/CD pipeline using Jenkins and GitHub.
  - Managed containerized microservices on AWS with EC2, Elastic Load Balancers, Auto Scaling, and RDS.
  - Enabled cross-region communication and security through VPC peering.
